Notice to residents

PREPARATION SHEET FOR COCKROACHES (Baiting)

We will gel bait your premises for cockroach. Please make proper arrangements for accessing your premises.

You are requested to help us in solving roach problem by preparing your house as follows for getting better result of treatment

- We need access to four corner of your all kitchen cabinet, so move your stuff in the middle of cabinet, drawers, cupboard underneath sink and medicine cabinets.
- Remove all access / over filled household items or food from kitchen drawers, top shelves, counters and under the kitchen counter.
- Move stove and refrigerator at least 2-feet away from the wall, so technician can do baiting on backside of these appliances
- Due to nature of treatment, you can stay in the premises during and after gel baiting.

Sanitation measure to avoid roaches:

- Placed your garbage in a lid container
- Store open food in insect proof container
- Remove grease and food debris from all kitchen appliances and surfaces periodically
- Vacuuming should done regularly especially close to baseboard as it plays an important role in eradication of different pest
- Shelves, cupboard, and drawers should not washed or wipe out after treatment and before placing stuff back
- If there is any leakage in your premises please do repair of your water fixture properly

You are advised to keep in mind that the following places serve as potential shelters for roaches.

Please keep an eye on these areas in your house

- Edges of walls and counters
- Any cracks and crevices in the house especially in the kitchen area
- Motor compartment under refrigerators, behind stove. Electrical devices and wall sockets,
- Plumbing fixtures and under sinks in kitchen and bathrooms

If you have further questions, please contact us at: 780 -707-1686.

Note: You may experience more roach activity in the next few days due to the effectiveness of the chemicals.

In any emergency, please contact Poison Control Centre at: 1-800-332-1414.
